### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach and/or suggest a membrane electrode assembly having a membrane disposed between first and second electrodes, which membrane is continuously disposed with a frame. The closest prior art, WO 00/40780 discloses the use of screen packs on both sides of a membrane against the electrodes to give support, whereas applicant's instant invention supports the membrane using only one substrate and further the prior art shows that there is a gap between the frame and the screen packs, whereas the instant invention is contiguous with the frame.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
